

DISAB Case Study with

**LEIF ÖSTER**

TECHNICAL PROJECT LEADER, WASA  
BARILLA GROUP

**DISAB**  
THE POWER OF VACUUM

CAN YOU GIVE US A QUICK **OVERVIEW**  
ABOUT YOUR **COMPANY** AND **BUSINESS**?

**DISAB**  
THE POWER OF VACUUM  
www.disab.com +46(0)8 - 514 50 570

**WASA**, a proud member of the **Barilla Group**, operates its main facilities in Filipstad, Sweden. We hold the distinction of being one of Europe's largest rye mills, solidifying Barilla's position as a global leader in producing knäckebröd (crispbread).

Our **daily operations** revolve around the use of high-quality **rye flour** as the primary material for producing **knäckebröd**, and we adhere to the strictest health and safety standards. These standards are not just regulatory requirements but essential for ensuring the integrity of our products and the safety of our team.

WHAT **CHALLENGES** DID YOU FACE BEFORE USING OUR PRODUCTS?

”

*We've had the DISAB vacuum system in house for over 37 years and it's not very easy to remember what it was like before that. However, we do know the importance of having a proper vacuum system.*

*DISAB equipment has been the standard, for as long as I've been here.*

WHAT **ADVICE** WOULD YOU GIVE TO COMPANIES THAT MIGHT FACE SIMILAR PROBLEMS TO YOU?

”

I'd strongly **recommend** hiring a company with the **right expertise** and the ability to provide a comprehensive solution. This **saves time, money**, and ensures **smooth operations**.

As we're currently building a new factory, we know we'll **rely on DISAB's** vacuum systems again, especially as energy consumption becomes an increasingly critical focus. Investing in efficient systems now is essential for long-term success.

HOW DID YOUR **TEAM** ADAPT TO THE NEW PRODUCTS?

There wasn't much adaptation needed since the system integrated **seamlessly** into our processes.

However, **operational reliability** has become even more **critical** for us. For example, during the changeover time—when we switch dough types to bake different breads—we have a strict window to clean the production area.

The **vacuum cleaner** must perform without fail during this period, as exceeding this time would result in costly delays in production.

Thanks to DISAB, we've been able to maintain that reliability and avoid costly disruptions.

WHAT MADE YOU **CHOOSE DISAB** OVER OTHERS, AND WHAT WAS THE **IMPLEMENTATION** PROCESS LIKE?

***DISAB** stood out as a comprehensive supplier that goes beyond just providing equipment. Their service includes **ongoing maintenance** and a **geographical proximity** that allows for quick support. These factors gave us confidence in their ability to meet our needs efficiently.*

*The latest purchase included a **DISAB vacuum cleaner**, the **BEPP filter**, and the **installation of a pipe system**. The process went incredibly smoothly—so much so that it required almost no input from our project management team.*

*DISAB handled everything with **precision** and **expertise**, making it a **hassle-free experience**.*

WHAT **NOTABLE RESULTS** HAVE YOU  
SEEN SINCE IMPLEMENTING OUR  
SOLUTION?

Through **DISAB's expertise** and **tailored advice**, we've managed to significantly **cut electricity consumption**.

By **investing** in the right machines which deliver the desired performance, we've seen notable **cost savings**. Additionally, our operators are now much more satisfied, working in a **cleaner** and **safer environment**.

On top of that, the fast and **smooth support** we receive from DISAB has been invaluable. Unlike many suppliers who are difficult to reach, **DISAB** ensures we get prompt answers whenever we call, which adds tremendous **value** to our operations.

WOULD YOU RECOMMEND OUR  
PRODUCTS AND SERVICES TO OTHERS?

”

***Without hesitation!***

*DISAB's products and services have proven invaluable to us, especially because of their **reliable customer support** and **quick response** times.*

*Their expertise, combined with their ability to deliver a complete solution, makes them a **trusted partner** we would **wholeheartedly recommend**.*
