INTRODUCTION

When operational challenges arise, finding the right solution can make all the difference. For Södra, Sweden's leading forest industry group, the decision to invest in a DISAB SkipVAC™ was a game-changer.

Södra acts as a bridge between forest owners and consumers, continuously striving to maximize the value of the forest and the benefits delivered to customers. Members and employees work together to refine and renew forest values through the cooperative Södra model.

Faced with the need for an efficient and reliable industrial vacuum cleaner, Södra turned to DISAB for a tailored solution that would enhance their productivity and sustainability efforts.

This case study explores how DISAB's SkipVAC™ addressed Södra's challenges, delivering exceptional results.

Långasjö, Sweden

CAN YOU GIVE US A QUICK **OVERVIEW** ABOUT YOUR **COMPANY** AND **BUSINESS**?

SÖDRA acts as a bridge between forest owners and consumers, continuously striving to maximize the value of the forest and the benefits delivered to customers. Members and employees work together to refine and renew forest values through the cooperative Södra model.

This economic model ensures that every member benefits from the added value created, while the cooperative ownership structure fosters long-term commitment and engagement.

Our vision is to be the next-generation forest company, rooted in sustainability and innovation.

DISAB SKIPVAC™

WHAT **CHALLENGES** DID YOU FACE BEFORE USING OUR PRODUCTS?

”

After moving one of our process sections, we initially tried running operations without a vacuum unit.

But the need for one came quickly!

it was bad for the working environment and clearly not sustainable. That's when the need for a vacuum solution became obvious.

WHAT MADE YOU CHOOSE DISAB OVER OTHER OPTIONS?

”

DISAB

- *We had heard about DISAB internally—other Södra sites had worked with them and were very happy with the results.*
- *DISAB-Tella listened carefully to our specific needs and challenges. They were flexible and worked closely with us to find a tailored solution.*
- *Our operators were actively involved in the process to make sure the equipment would be easy to use in our daily routines.*
- *Sustainability is a big priority for us, and DISAB's solution helped us align with our environmental goals.*

WOULD YOU **RECOMMEND** OUR
PRODUCTS AND SERVICES TO OTHERS?

”

Definitely!

Seamless process, always next to the client. We are satisfied and really happy with both the process and the product.
